Quarantine Period

*All foster cats require a separate room for a 10-14 day quarantine period. This is to ensure the safety of any resident cats and prevent the spread of possible illness. Also, different cats have different behaviours and so have different adjustment periods***. Some cats may adjust right away. Others may take at least two weeks. This can especially be true if other pets are involved. Therefore, **PROPER INTRODUCTIONS** must be practiced with all cats in care.*

Do you have a separate "quarantine room" away from other pets, small children etc to allow this cat to become comfortable for the quarantine/introduction period? ☐ Yes ☐ No

Care of Your Foster Cat

All foster cat necessities are provided by FFR, these include: food, litter, litter box and scoop and all vetting required during care.

At no time, are any foster cats in care to be allowed outside for any reason.

You must be willing and able to care and provide stability for an animal.

You understand that all animals remain under the custodianship of Fortunate Felines and you are not permitted to destroy, give away, breed or sell an animal that has been placed in your care for foster purposes.

You are not permitted to allow anyone else to take this animal without the knowledge AND consent of the Organization

Are you comfortable/willing to have potential adopters visit a foster animal in your home? ☐ YES ☐ NO

Occasionally a foster family may have to take a foster animal to our vet to receive care. One of our directors must be notified before taking a foster animal to the vet, but you may be asked to bring the foster animal in yourself (Especially in emergency situations).

If, for any reason, you are unable to continue fostering the animal in your care, please notify the rescue as soon as possible.
